THE GAMES

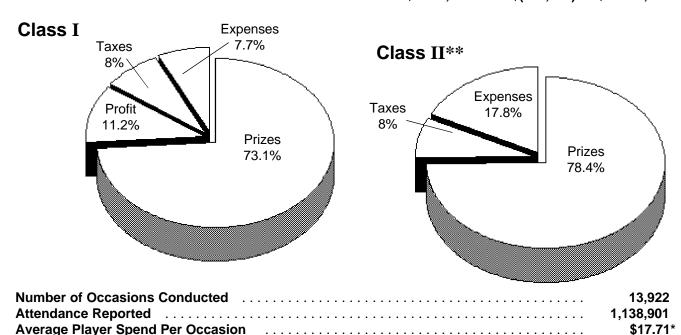

Bingo

Another decline this reporting period marks the fourth consecutive year that bingo wagering continued to tumble in Nebraska. Bingo gross receipts, at \$20,166,019 for the reporting period, were at their lowest level in 10 years. Receipts were down 5.4 percent from the previous reporting period, and down 21.8 percent since their peak year in 1993 of \$25,803,263.

Class I receipts at \$6,545,873 were down by 4.7 percent, which closely reflects the decrease in the number of Class I bingo licensees, which were down by 4.2 percent (205 compared to 214 for the previous reporting period). On the other hand, Class II bingo receipts at \$13,620,146 were down 9.7 percent, with a much larger decrease in the number of licensees at 19.5 percent (33 compared to 41 for the previews reporting period). It is believed that the introduction of electronic bingo card monitoring devices during the reporting period, which were being used primarily by Class II licensees, stimulated bingo paper sales enough to negate some of the lost receipts resulting from the closure of the eight Class II bingo operations. Relatively little change was seen this reporting period with respect to the amount of bingo prizes paid, expenses incurred, and profits realized by the licensed organizations.

A drop in bingo attendance of 11.1 percent coincides with the drop in the number of bingo occasions held during the reporting period, which were down by 6.7 percent. Average player spend, however, increased from \$16.64 per bingo occasion to \$17.71. This increase is also thought to be the result of the introduction of electronic bingo card monitoring devices; a higher player spend was being seen at those occasions where electronic bingo card monitoring devices were utilized. It should also be noted that a 21.3 percent increase was seen this reporting period in the number of Special Event Bingo permits issued. Special Event Bingo is a relatively new program, which became available in October of 1994, that allows an organization to forego the need to obtain a full-blown bingo license if it wants to conduct bingo only once or twice a year at some special function, such as a county fair or school fun night. As organizations have become more familiar with the option of Special Event Bingo, many have dropped their Class I bingo licenses in lieu of obtaining a Special Event Bingo permit. Special Event Bingo is exempt from the tax, record keeping, and reporting requirements in place for Class I and Class II bingo licensees; thus, the Special Event Bingo gross receipts, number of occasions, and attendance numbers are not reflected in the figures shown on this page, and undoubtedly have contributed in part to the declining numbers

found here.	CLASS I	CLASS II	TOTAL
Bingo Gross Receipts	\$6,545,873	\$13,620,146	\$20,166,019
Prizes	4,781,382	10,674,525	15,455,907
Expenses	506,128	2,424,622	2,930,750
Taxes (6% State and 2% Local)	523,670	1,089,612	1,613,282
Profit	\$ 734,693	\$(568,613)	\$ 166,080

- Does not include player spend on pickle cards sold at the bingo occasions.
- Percentage distribution exceeds 100 percent, creating net loss.

Average Player Spend Per Occasion

Pickle Cards

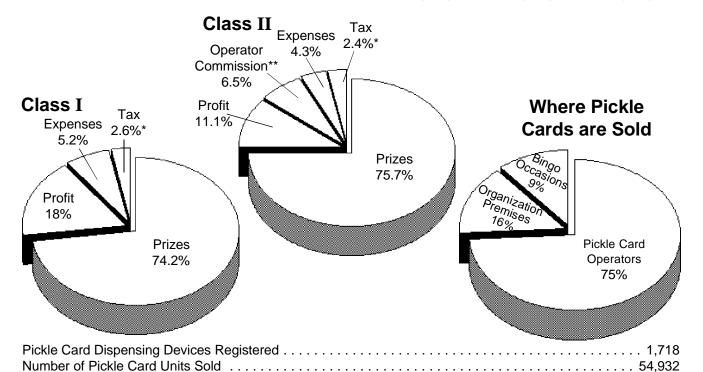

Of all the charitable gaming programs administered by the Department, pickle card sales, at \$116,790,134, for the reporting period appear to have been hardest hit by the competition from other forms of gambling. Sales were down for the third straight year, showing a 19.1 percent drop from the previous reporting period. Overall, sales are down 34.2 percent from their peak year during the 1994 reporting period when sales topped \$177,359,919. The number of pickle card units sold during the reporting period dropped by 19.8 percent; 68,484 units were sold last period, compared to 54,932 during this period.

Class I licensees, those selling pickle cards only at their designated premises (club facility) and bingo occasions reported a decrease in sales of 29.7 percent (from \$25,136,096 last year to \$17,679,570 this year). Class II licensees, those selling primarily through pickle card operators showed a 16.9 percent decrease (from \$119,206,977 to \$99,110,564). As the pie chart below illustrates, a majority of the pickle card sales in Nebraska continue to be through pickle card operators and has remained a steady 75 percent for the past three years. This is in spite of the fact that for the second year in a row, the number of pickle card operators has continued to drop (from 1,715 last year to 1,620 this year). This reporting period marked the first time that the number of pickle card dispensing devices registered with the Department actually decreased. The number of devices registered dropped by 9.4 percent (from 1,897 last year to 1,718 this year).

The number of organizations licensed to conduct a lottery by the sale of pickle cards decreased only slightly this reporting period (from 694 to 691); however, there was some shifting within the program relative to the classes of licenses issued. While the number of Class I licenses dropped by four percent, the number of Class II licenses increased by 3.4 percent. The decrease in Class I licensees by 10, and the increase in Class II licensees by 15 may in part be explained by Class I licensees upgrading to a Class II license.

Relatively no change was seen this reporting period as compared to last with respect to the percentage distribution of pickle card gross proceeds (see pie charts below).

	CLASS I	CLASS II	TOTAL
Pickle Card Gross Proceeds	\$17,679,570	\$99,110,564	\$116,790,134
Prizes	13,109,325	75,033,369	88,142,694
Operator Commissions	N/A	6,422,136	6,422,136
Expenses	. 912,209	4,235,374	5,147,583
Tax	457,025	2,407,719	2,864,744
Profit	\$ 3.201.011	\$11.011.966	\$ 14.212.977

^{*} The statutory pickle card tax rate is ten percent of definite profit, which translates to approximately 2.5 percent of gross proceeds.

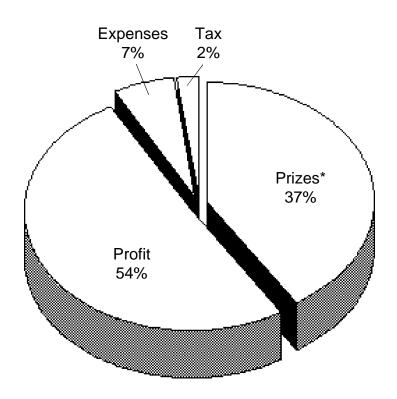

^{**} The statutory maximum allowed for a pickle card operator commission is 30 percent of definite profit, which translates to approximately 7 percent of gross proceeds.

Lotteries and Raffles

Lottery/raffle was the only charitable gaming program to show an increase in wagering for this reporting period. At a combined \$3,343,691, gross proceeds were up by nine percent. The total number of lottery/raffle licensees has remained fairly constant for the past three years, holding at 177 to 178. Raffle (primarily merchandise prizes) gross proceeds were up 18.9 percent, and lottery (primarily cash prizes) gross proceeds were up by 2.4 percent. We always caution, however, that due to the relatively small volume of lottery/raffle activity in comparison to the other charitable gaming activities, one or two large lotteries or raffles can have a significant impact on the percentage of increase or decrease for this program. There was a slight shift in the percentage distributions seen below, with prizes dropping from 41 percent last reporting period to 37 percent for this period, profits increasing from 51 percent last period to 54 percent this period, and expenses increasing by one percent this reporting period over last.

It should be noted that the figures on this page represent only lotteries with gross proceeds (ticket sales) exceeding \$1,000, and raffles with gross proceeds exceeding \$5,000. Nonprofit organizations conducting lotteries or raffles with gross proceeds equal to or below these thresholds are not required to file reports with the Department or pay any lottery/raffle tax. A significant number of lotteries and raffles conducted in Nebraska fall within the non-reportable category.

Lottery Gross Proceeds	\$1,882,498	
Raffle Gross Proceeds	1,461,193	
Total Gross Proceeds		3,343,691
Prizes		1,221,172
Expenses		251,195
Total Taxes		66,873
Profit		\$1,804,451

^{*} Actual prizes awarded equaled 43 percent of the total gross proceeds; however of this 43 percent, six percent of the prizes awarded were donated prizes.

County/City Lotteries

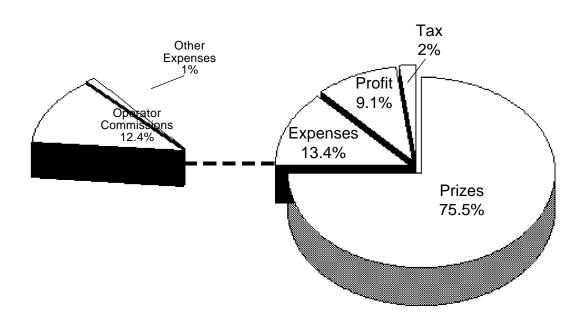

For the second consecutive year, a decline was seen in county/city lottery (keno) wagering. Gross wagering at \$160,521,574 was down 10.5 percent from the previous reporting period. Overall, from its peak wagering of \$208,670,897 during the 1995 reporting period, county/city lottery activity has dropped by 23.1 percent and is second only to pickle cards with respect to dollars lost to other forms of gambling.

Twelve communities held an election on the establishment of a lottery during the reporting period, as did 12 other communities for the same period last year. Five of these communities defeated the issue, while seven approved the operation of a lottery within their jurisdictions (see pages 12 & 13 of this report for election status details). Although the licensing numbers would appear to indicate an increase in county/city lottery activity (communities licensed to conduct a county/city lottery activity increased from 131 to 136, the number of lottery operators conducting games on behalf of those communities increased from 134 to 141, and the number of sales outlet location licenses where those operators were offering games increased from 349 to 396), it should be noted that six communities (Auburn, Imperial, Lewellen, Ong, Rushville, and Sprague), although actively licensed, had actually discontinued operating their lotteries during the reporting period. The net result is that one less community from last year was actually conducting a lottery.

In reviewing the licensing totals you may also note, for the first time ever, a decrease in the number of county/city lottery workers licensed during this reporting period. 3,637 workers were licensed this period, compared to 3,921 for the previous period. This 7.2 percent decrease is due largely to a concentrated effort undertaken by the Department to update the employment status of all county/city lottery workers and removing many that were inactive yet still on file. Discontinuation of an individual as a lottery worker is required to be reported to the Department; however, many lottery operators were failing to do so.

Virtually no change was seen this reporting period as compared to last, with respect to the distribution of county/city lottery gross proceeds (see pie chart below). Prizes and expenses (basically, operator commissions) both showed minimal increases (.5 percent and .4 percent respectively), resulting in a slight decrease in profit of .9 percent.

County/City Lottery Gross Proceeds	\$160,521,574
Prizes	121,278,794
Lottery Operator Commissions\$19,	855,637
Other Expenses	573,478
Total Expenses	21,429,115
Tax	3,210,433
Profit	\$ 14 603 232
